

Edison LED floor lamp Tavira | warm white | 6,5 watt

Product Images

Short Description

The Edison LED standing light Tavira, with its energy-efficient consumption of 6.5 watts, is suitable for illuminating your driveway or a walkway. You can also use it to illuminate your plants and perhaps you have a good idea of your own about where to put this stylish lamp. This lamp has a 360° angle of light and operates on 230 volts.

Description

Do you want to light up your driveway, a walkway, or several plants? Then this Tavira LED floor lamp with its energy-saving consumption of 6.5 watts is highly recommended! This lamp is 70 cm high and shines a pleasant warm white light (2700k). The floor lamp is powder-coated and has an IP value of 65 (IP65). This indicates that this lamp is weatherproof and suitable for outdoor use.

The lamp comes with a 40 cm long 3-core cable that you need to connect directly to a 230-volt power cable. This can be done with our waterproof cable connectors. You can find these in the accessories section of this product. Would you like to make this Tavira floor LED lamp smarter? This is possible with a twilight switch and a motion detector. Both are available on our webshop.

Tip: By using the waterproof cable connectors, it is easy to combine several garden lights.

For more information about this lamp, we refer you to the product specifications of the Tavira LED floor lamp.
