

Cree LED wall lamp Vizela | warm white | 7 watt

Product Images

Short Description

This stylish Cree LED wall light Vizela is suitable to be mounted against a wall, wall, or fence. The wall lamp has a consumption of 7 watts. The working voltage of this lamp is 230 volts.

Description

The Vizela provides warm white light (2700k) to ensure that your garden is illuminated pleasantly. The angle of the warm white light is 120°. The Vizela wall light is powder-coated and therefore weather-resistant. This is further confirmed by the high IP65 value of this wall light. The wall lamp comes with a 40 cm long three-core cable. You will need to connect this directly to a 230-volt power cable.

The 3-wire cable of the wall lamp can be easily connected to a 230-volt power cable using waterproof cable connectors. These waterproof cable connectors are available on our webshop. Would you like to connect this Vizela wall light with a twilight switch and motion detector? Then add these separately to your shopping basket. Both are available on our webshop.

Tip: combine several garden lights to create a total picture.

This wall lamp comes with a 5-year guarantee. Do you need advice or have a question about the Vizela wall lamp? Please feel free to contact our LED specialists. See also all product information about this wall lamp.
