

Epistar LED decklight Alfena | warm white | 0,4 watt

Product Images

Short Description

This Epistar LED Alfena deck light is a supplement to the Epistar LED Alfena Decking Light set. The Alfena set can be expanded to a maximum of 20 spots.

Description

This spot is an addition to the Alfena set and therefore comes with a 1-meter cable. You can connect this spot to the last spot in your current Alfena set. Is 1 meter of cable not enough? Extend the cable with a deck lighting extension cable.

Tip: You need to put the sealing cap of the last spotlight on the new Alfena spotlight. This will be your new last spot and the cable should be covered for protection.

This spot has a 5-year warranty. More product details can be found in the product specifications. Also, watch the product film. Do you have any questions or need advice? Please feel free to contact us.

Additional Information
