

Steinel motion detector | black | 64 watts | infrared sensor

Product Images

Short Description

This infrared motion detector is suitable for our indoor lighting, conservatory lighting (only with the BAS sets), and garden lighting. The motion detector works on 230 volts.

Description

This infrared motion detector is suitable for our indoor lighting, porch lighting (only with the BAS sets), and garden lighting. The motion detector works on 230 volts and the sensor can be rotated horizontally by 180° and vertically by 90°. With a registration angle of 140° and a range of up to 14 meters, this sensor has a large reach.

The Steinel motion detector can be easily set to the time and power level using rotary knobs at the bottom of the sensor lens.
