### Product Images

---

## Short Description

---

This hole saw is suitable for making holes in metal, copper, aluminium, cast iron, wood, plaster, and plastic. This saw is available in 22mm, 28mm, 30mm, 35mm, 42mm, 53mm, and 75mm.

## Description

---

Do you want to make perfectly sized holes for your recessed spotlights? Then this hole saw is what you need. You can choose from 7 different sizes.

Please note: this hole saw is not suitable for cutting in stone. If you are sawing in iron, use drill cutting oil and saw at low speed. This is to preserve your hole saw.
