Short Description

The Cree LED Porto spike light has an energy-efficient output of 3 watts and is therefore suitable for illuminating shrubs, trees and objects from 1 to 5 metres in height. The Porto spotlight is also ideal for illuminating walls up to 5 metres high and ponds. The operating voltage of this spotlight is 230 volts.

Description

Do you have a shrub, tree or object in your garden that is 1, 2, 3, 4 or 5 metres high? Then this Cree LED Porto spotlight with its low-energy consumption of 3 watts is highly recommended. This Porto spotlight is also ideal for illuminating a pond. Make sure that you do not install the spotlight in the pond! The spotlight is provided with a sharp pin on the bottom. The sharp pin makes it easy to place and move the spot. The spot is tiltable so that you can determine the direction in which it shines.

The Porto spotlight is powder-coated, which means that it is protected against all weather conditions. This spotlight has an IP value of 65 (IP65).

The spotlight is equipped with a 3-metre cable with a plug on the end. You can plug the plug into a socket and the spotlight will light up with a nice warm whitebeam (2700k). It is, of course, also possible to connect the spotlight to a 230-volt power cable. You then need to cut off the plug and the 3-core cable will appear. With our waterproof cable connectors, you can then connect the spotlight to the 230-volt power cable. These cable connectors are not supplied as standard but can be ordered from our website. Would you like to make this spotlight smarter? This is possible with a twilight switch and a motion detector. Both are available from our webshop.

Tip: We recommend that 230-volt cables are laid 60 cm underground, so they are safe and neatly concealed.

On behalf of Hamulight, you will receive a 5-year warranty on the Cree LED Porto spotlight. Would you like more information about this spotlight? Read all the product specifications or ask our LED specialists a question. You can chat with them, call or email.

Additional Information

Article number	L2091
EAN code	7435124531506
Brand	Hamulight
Suitable for	Outside
Light color	Warm white (2700K)
Input voltage	230V AC
LED chip	Cree
Consumption	3 watt
Dimmable	No
Lumen per LED (including lens)	150 lm
