# Cree LED wall lights Lamego | warm white | square | 2 x 1,5 watt | up & down | different colours

Product Images

Short Description

The Cree LED wall light Lamego is an addition to your current porch set. The wall light has a beautiful square design and is equipped with 2 dimmable spots. One spot shines up with 1,5 watts and the other down with 1,5 watts.

Description

The Lamego wall light is an addition to your current porch set. We, therefore, advise you to check carefully whether you still have room in the connector of your current porch set. Is there still room? Then the Lamego wall light is highly recommended to make your porch shine from the outside as well. Using 2 spots with warm white light (2700k) of 1,5 watts each, your porch will be illuminated in an extremely pleasant way!

The Lamego wall light is suitable for placing on the outside of the posts of your porch. The lamp, therefore, has an IP value of 67 (IP-67). This means that the lamp is resistant to splashing and spraying water and is dustproof. The wall lamp is therefore weatherproof. The lamp has a 7-meter cable with a connector at the end. The connector should be plugged into the connector of your porch set.

Tip: this product only works in combination with a porch set. You don't have a porch set? Then you can order one on our webshop.

Do you have a question about the Lamego wall light? Please ask our LED specialists. See also the product film and the product specifications.
